CU Community Credit Union to Remodel Mid-Town Location

Springfield, MO, February 25, 2010 – In an effort to take advantage of lower construction costs, open the branch up to the community, and increase efficiency, [CU Community Credit Union](http://www.mycucommunity.com) will be remodeling their 818 N. Benton Avenue location starting this March.

Facing trends of growth along with a dated facility, last remodeled in 1995, the leadership of CU Community Credit Union sought a creative solution to their design problem. The existing floor layout was strained in both flow and function because of separated teller and drive-thru spaces. The remodel, which will include a 4,458 square foot addition to their current 7,732 square foot building, will consist of a complete reconfiguration of their floor plan.

The addition will extend their building to the south, and will include joining the lobby and drive-thru teller lines, expanded parking and lobby space, a new tower element, new signage, interior paint, carpeting, furniture, landscaping and lighting.

This location will remain open during the remodel, but their lobby and drive-thru services will be moved to an on-site modular unit during much of the remodel.

The remodel is scheduled to be completed in the fall of 2010. The General Contractor is [The Bailey Company](#), the architect is [H Design Group](#), the engineers are [Colvin Jones Davis](#) (M,E,P), [Anderson Engineering](#) (Civil), and [Pinnacle Design Consultants](#) (Structural). The Interior Design will be done by [Interior Planning Consultants](#).

About CU Community Credit Union: CU Community Credit Union is a member-owned, not-for-profit financial institution open to anyone employed by City Utilities, that is a CU customer, or that lives or works in Greene & Christian counties. CU Community, with over 5,700 members and \$64 million in assets, has 2 branches in Springfield, Missouri, and offers access to over 25,000 free ATMs nationwide through the [Co-Op Network](#).
